

eSignatures and property

Signable

Why property needs eSigning...

We already helps hundreds and hundreds of businesses in property with our eSignatures. As the property sector has quickly caught on that they are a faster, more secure way of signing, sending, and storing your contracts and agreements.

Here's how our property customers are already using eSignatures...

With eSignatures you can have these forms finished in minutes:

- Tenancy agreements
- Landlord contracts
- Inventories
- References

So, how do eSignatures help?

- **Cut down your turnaround**

eSignatures help thousands in property get the signatures they need faster, every day!

Whether it's for private, residential or commercial properties; Signable ensures that you're not left waiting or chasing your clients for their scribble. Letting you get on with the real work.

- **Signable can witness your contracts**

Typically, documents such as tenancy agreements require witness signatures. However,

by using Signable, witnesses aren't needed.

The system tracking the signing process, Signable's software in this case, acts as the independent third party that ensures contracts are signed correctly. Removing the need for an extra signature,

- **Who's seen what?**

When your tenants move in, it's important that documents such as inventory lists are signed off ASAP.

And as Signable will log every time an envelope is opened and viewed in it's audit trail, you can eliminate any "we haven't received it" excuses from tenants!

- **Multiple signers on one document**

Letting Agents frequently deal need multiple signatures on one contract.

Using eSignatures cuts out chasing each tenant for a signature by adding multiple signers to the same contract. And even sending in the same envelope! Each tenant is prompted to sign in the order set pre-sending, and each tenant receives a copy of their contract once it's completed.

We're already helping these companies:

"What a relief! It's revolutionised our business ... It's difficult to see how we managed before Signable it's the future for us, saving time and money and giving us one less thing to think about."
